

When we have ideas, we work to achieve them. Day after day we keep pushing toward our goal. Sometimes it is a small cause we work for. Sometimes it is a global tragedy. However, if we give up, that small debate springing between countries could turn into a raging war. One on top of another, problems continue to occur across our globe. We gather together today to focus on a problem in the region of Darfur in Sudan. If we give Michigan taxpayer dollars to the Sudanese government, they will keep killing, and it could turn into yet another war that we are involved in. Who knows? This may become a worldwide war. We must act now! When there is a problem waiting to be solved, go solve it! You are smart. Do not become hungry for power or money! You're already powerful. You have the power to change the world! And all you have to do is support HB 4853 targeted divestment from Sudan. Remember that a thousand-mile journey begins with one step. And support targeted divestment legislation.
